

170.315 (b)(10) Electronic Health Information Export

Company: Health Information Management Systems

Product Name: Axiom

Version Number: 7

This document provides steps for using the Electronic Health Information (EHI) export feature in Axiom. Authorized users can export patient single record or have the option to export records for all patients within a reasonable time.

- **EHI Export for a single patient data**
 - Login to the Axiom EHR
 - Go to the Report page.
 - Enter the patient's name and the corresponding parameters.
 - Click on "BUILD REPORT"

The screenshot shows a web interface for generating reports. At the top is a purple header bar with a search box labeled "Form Search...". Below this is a section titled "Report Parameters:". It contains two date pickers: "Start Date" with the value "11/24/2023" and "End Date" with the value "12/01/2023". Below the dates is a "Patient:" label followed by a text input field containing "81662". To the right of the patient field is a "Form Types:" label followed by a scrollable list box. The list box contains the following items: "Dynamic Form: AccountLogin", "Dynamic Form: Active Meds Test", "Dynamic Form: ADAD Test Form", "Dynamic Form: Adult ADHD Self-Report Scale (ASRS-v1.)", "Dynamic Form: Adult Brief Psychosocial Assessment - Dra", "Dynamic Form: Adult Brief Psychosocial Assessment - Dra", "Dynamic Form: Advance Directive Form", "Dynamic Form: Agency - Encounter Form Signature", "Dynamic Form: AKDA", "Dynamic Form: All Tools Form", and "Dynamic Form: allow fax 1". At the bottom of the form is a green button labeled "BUILD REPORT".

- You will see a record displaying the patients information and the number of records associated with your request
- Click on the record and select the data to export (you can click on the top checkbox to select all documents).
- There will also be an option to Export the data by clicking on "EHI Export" from the action dropdown menu
